

## SPS IPC Drives: Products & solutions enabling Industry 4.0

ST is pleased to invite you to

SPS IPC Drives is Europe's leading exhibition for electric automation technologies. It covers all components down to complete systems and integrated automation solutions.

Join us at our **Booth 341 in Hall 6** to discover our latest innovative solutions designed to meet your future needs enabling Industry 4.0:

- Solutions for automation digital I/Os and motor control including galvanic isolation
- Industrial communication including wireless and IO-Link technologies
- Driver ICs and DC/DC converters for safety
- STM32 and secure microcontrollers
- MOSFETs, IGBTs and power modules including new SiC MOSFETs and rectifiers

It will be a great opportunity to **discuss ideas and projects with our experts**.

Reserve a **free STM32 Nucleo expansion board** online now and **go home with the compatible STM32 Nucleo development board** from our booth **for free**.

**[Choose your free STM32 Nucleo expansion board now](#)**

We are looking forward to meeting you in Nuremberg!
